CompTIA CTT+ Classroom Training

Course Duration 8 Days

Description

CompTIA CTT+ certification validates a range of skills, including preparation, presentation, communication, facilitation and evaluation in both, a classroom and virtual classroom environment.

Two exams are necessary to be certified: CompTIA CTT+ Essentials, and at least one of the two designations: Classroom Trainer or Virtual Classroom Trainer. The exam covers planning prior to the course, methods and media for instructional delivery, instructor credibility and communications, group facilitation and evaluating the training event.

Our course includes classroom instruction as well as support for the recording session for the performance based exam. Tekno Point is also engaged with organizations like Dell helping their internal trainers get certified.

Adobe, Dell, Microsoft, Novell and Ricoh recommend that their trainers be CompTIA CTT+ certified. The Training Associates also look for CompTIA CTT+ certification when hiring trainers.

Tekno Point provides training services for organizations and individuals. You will benefit from our experience of training over 5000 IT professionals on various Adobe Products in India, Malaysia, Sri Lanka. **Train for your certification exam through personal instruction with knowledgeable instructors delivering the subject matter in a professional, informative manner using CompTIA accredited materials.**

Testimonials

The course material, instructional methods & overall training program is a very useful one for technology Instructors. A must for every corporate IT trainer, once in the entire career. The trainer was quite supportive & trustworthy.

Arzan Amaria, Director, E-Resolve Tech

The course content & the Instructor were the 2 main things that blew me away. I have been taught very basic things like how to talk, behave & listen while training someone. CompTIA has designed this course very well & the trainer delivered it perfectly.

Dr. Subramani Paramasivam, Founder & CEO, Your SQL Man UK Ltd.
