

HTML5 Advanced API

Course Duration: 32 hours

Description

HTML 5 and CSS3: Website Development provides Web Designers with the knowledge and hands-on practice they need to build and manage professional web sites using HTML5, CSS3 and JavaScript. Which can be implemented in future-rich web browsers on iPhones, Android Phones and WebOS Phones thereby allowing mobile web developers to build websites that surpass desktop equivalents.

Eligibility

This course is for people new to web design and development or existing web developers who want to use HTML 5 and CSS3 to build intuitive, attractive and accessible web sites.

Course Outline

- Basics of JavaScript
- HTML5 Canvas
- Html 5 Video/audio/svg
- Geolocation
- Drag & Drop
- Local Storage
- History API
- Filesystem API
- Web Workers

Testimonials

I am Front end developer. We had training on HTML5, CSS3 and Phone Gap. First it seemed to be very tough to understand but the trainer had made it very easy to understand by making us follow step-by-step guides and detail knowledge and also explain in detail how the code executes.

Shivkumar Gupta, Front-end Developer
